# Assess, evaluate, plan.

The school year has come to a close.

This last month was an opportunity to step into the world of the learners, assess the learning that has taken place across learning levels and projects, extrapolate trends, strengths, areas for improvement and use this data in our planning for the new academic year.

-Reeves

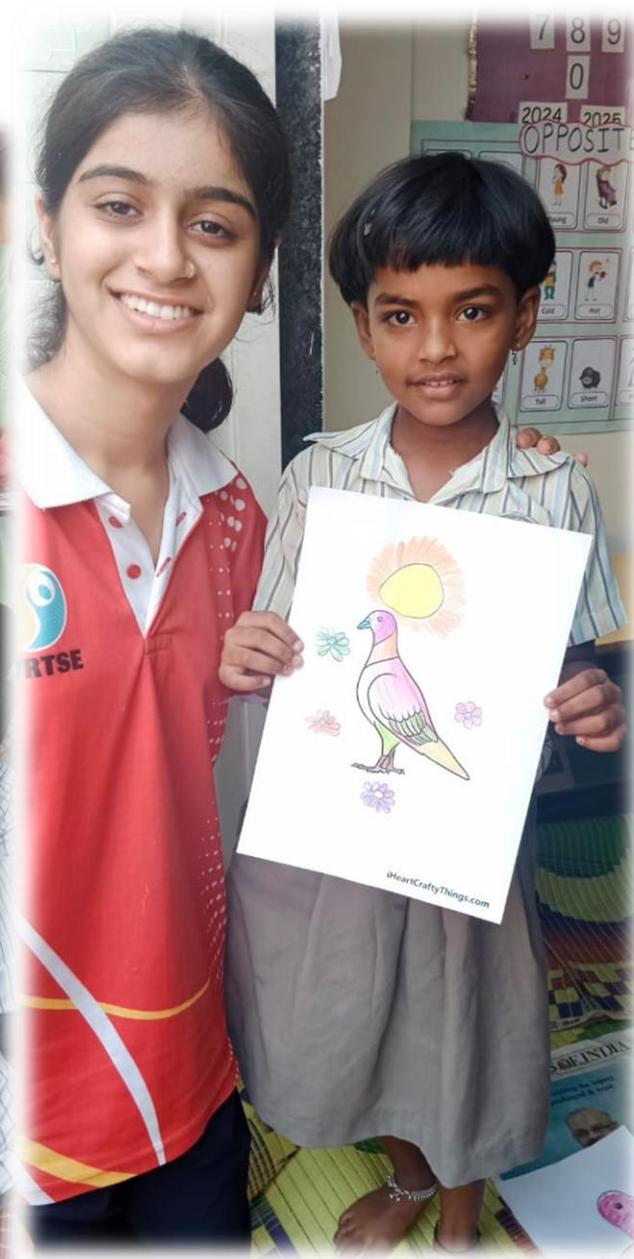

# Child Development Centre

In the first half of the month, the children took their year end assessments.

The parents were invited to an open day with the teachers to look at the learning of their children in the second term and discuss the outcome of the assessments.

We also had a visit from the students of Bharati Vidyapeeth Rabindranath Tagore School of Excellence who through imagination and creativity helped our students revise the monthly theme of animals and birds.

# Spoken English Project in Schools

Visits to the schools through April were aimed at assessing the learners. The assessments were customised according to the learning levels in each school and the curriculum completed with the learners this year. Certain trends are emerging and these will be deepened in and ratified in the month ahead.
